

CONSUMER GOODS & RETAIL MY STORE

*DELIVER A UNIQUE CUSTOMER EXPERIENCE
ACROSS ALL CHANNELS*

**AN INDUSTRY
SOLUTION EXPERIENCE
TO VISUALIZE THE BEST
PRODUCT ASSORTMENT
AND CREATE THE BEST
CONSUMER EXPERIENCE
TO TURN EVERY VISIT
INTO A PURCHASE**

Consumers have an exceptional shopping experience when they have that “wow” moment. It can occur from the moment a consumer catches a glimpse of a store to the pleasure they experience when inside. It is what ensures **repeat visits and loyalty**. Today’s merchants have to work harder than ever before to communicate a compelling brand persona to shoppers. They must have a vision for how they want their stores to look and deploy that look in a multi-channel environment. Considerable thought goes into defining what the **ideal product** mix is and how to best display that to enhance brand equity at every store location. The goal? Delivering a **unique shopping experience** that will drive sales and have a direct topline impact.

A picture is worth a thousand words

With **My Store** the shopping environment is represented as a 3D virtual model with impressive realism.

This effective way of representing, and even editing, an assortment before actually installing physical products throughout the store improves ROI through early visibility of store layout and contents and avoids expensive and time-consuming re-dos.

It also enables you to make informed decisions on assortments and store layout early.

Enhance collaboration between your teams

Brands and Retailers now have a 3D environment where management can collaborate visually with their merchandising, assortment, space planning and store design teams and with their associates regardless of location. Together they can come up with the best product assortment and create the best consumer experience that will turn every visit into a purchase.

Create the ultimate consumer experience

Whether in a physical store or any environment in which the consumer encounters the product you want to sell, **My Store** is the answer to showcase your products in a compelling and enticing manner. Get the merchant's vision of how products should be displayed in the store and to implement this vision effectively. Connect with consumer groups and link their feedback directly into the store layout and even product assortments. As a Brand manufacturer you can show your products displayed in the best combinations to influence retailers and thus increase your presence and sales. As a Retailer you can deliver the store that will delight your customers.
